Cash, Card or Check # \_\_\_\_\_

Orders should arrive by Start of school

### STEP 1. TRACE FOOT

Place a piece of paper on the ground. Make sure you are wearing the sock you intend to wear with the shoe. Ensure you have your full weight on the foot for the most accurate measurement. slowly trace around your foot ensuring the pen or pencil is at a 90 degree angle.

### STEP 2. MEASURE LENGTH

Use a measuring tape, measure the outline from the back/central part of the heel to the end of the longest toe. You may want to try tracing your foot a few times for more accurate results.

### STEP 3. MEASURE WIDTH

Measure the widest part of your foot. Ensure you have your full weight on the foot to ensure a more accurate measurement.
